

SCA's mission is to build the next generation of conservation leaders and inspire lifelong stewardship of the environment and communities by engaging young people in hands-on service to the land.

It's Our Job, Every Day

Every day SCA unites young people with hands-on environmental challenges. Every day we create future stewards of our land, healthier environments and—ultimately—a better world.

EXPLORE!

Crew member Tiffany Whaley said of the experience, "Slide Ranch I would say was where I felt like I was doing amazing work. Just being out there the first time was motivating knowing I was doing something that would benefit a lot of people. So, going out there again and working on a major project that took all crews to make a dent into it was different."

In 2017, a SCA youth crew from Oakland, CA rebuilt the Tidal Pool Trail, which had washed out after weeks of heavy rain. The rebuild of Slide Ranch's Tidal Pool Trail was physically and technically challenging. SCA crew members rebuilt trail tread, installed drainage, and created a staircase on the steep coastal trail. The project required carrying rock and timber to the site, crushing rock, and installing stairs made from the wood and rock.

Student Conservation Association has partnered for several years with Slide Ranch, a nonprofit environmental farm and educational preserve with property located on the Marin Coast, north of Muir Beach. Slide Ranch is a partner of the Golden Gate National Parks. The 143-acre property is free and open to the public. It features organic gardens, a tidal pool network, and winding coastal trails.
